

Python Installation :

1. Visit Website : <https://www.python.org/downloads/windows/>
2. Click on the "Latest Python 3 Release - Python x.x.x" link. If your computer is running a 64-bit version of Windows, download the Windows x86-64 executable installer.
3. Verify the installation was successful by opening a command prompt and running the Python command:
4. Python --version
5. Python 3.6.1
