Anaconda

1. [Download the Anaconda installer](#).
2. Optional: [Verify data integrity with MD5 or SHA-256](#). [More info on hashes](#)
3. Double click the installer to launch.
4. NOTE: To prevent permission errors, do not launch the installer from the [Favorites folder](#).
5. NOTE: If you encounter issues during installation, temporarily disable your anti-virus software during install, then re-enable it after the installation concludes. If you installed for all users, uninstall Anaconda and re-install it for your user only and try again.
6. Click Next.
7. Read the licensing terms and click "I Agree".
8. Select an install for "Just Me" unless you're installing for all users (which requires Windows Administrator privileges) and click Next.
9. Select a destination folder to install Anaconda and click the Next button. See [FAQ](#).
